

Notification of The family dog or pet Attending Funeral

Deceased Name:

Date of Funeral:

As the applicant for the Funeral Service of the above, I have been informed of the rules and regulations set by Bramcote Bereavement Services and I am notifying them that the family dog or pet will be attending the Funeral Service of the deceased named above.

Rules & Regulations for Dogs/Pets Attending Funerals

The family dog or pet are allowed at funeral services, but unfortunately, they cannot attend ash scatterings on our grounds. The following terms apply.

- The family dog or pet must be the family pet of the deceased person.
- The request for the attendance of The family dog or pet must come from the Applicant for the funeral (who is not necessarily the next of kin).
- The family dog or pet must come as part of the cortege – in so far as it can't be brought beforehand and exercised in the grounds.
- The family dog must be on a leash at all times and under the control of a responsible adult.
- The family dog or pet to leave afterwards with the immediate family.
- Animals are not allowed within the grounds and cannot be exercised around the building.
- In the event that there is any accidental 'mess' within the chapel, the area affected will be Professionally cleaned by an external company and the costs charged to the family.

We often receive requests for dogs or other pets to attend funeral services, and we are happy to accommodate them as long as their presence does not offend the congregation or other visitors.
